WORK EXPERIENCE

Apple | Los Angeles, CA (Remote) 2020 - Present

MULTIMEDIA PRODUCER

- Led development for accessible e-training modules used by thousands of AppleCare contact center advisors.
- Worked on a cross-functional team of 4 to support content developers from various lines of Apple products.
- Upgraded internal tools for authoring training content.

RelayCars | Los Angeles, CA (Hybrid) 2018 - 2020

SENIOR WEB DEVELOPER

- Designed and developed a restful JSON API service that delivers thousands of vehicle assets to industry leading car companies.
- Created a VR Web App that features vehicle panoramas and 360° spins.
- Self taught DevOps skills in order to deploy our API. Used AWS services like Elastic Beanstalk, Cloudfront, S3, and EC2.

Boon VR | Los Angeles, CA (Remote) NY 2017

SOFTWARE ENGINEER

- Worked with a small remote team to build and scale a cloud-based web app for medtech training.
- Developed new features for the training room, which included hotspots, video scrubbing, and an interactive quiz to test for knowledge retention.

Citta Corp | New York, NY 2016 - 2017

SOFTWARE DEVELOPER

- Worked on a suite of microservices and applications built primarily on open source technology using JavaScript, HTML, LESS and Angular
- Created and deployed our corporate website from scratch using Wordpress
- Held sole responsibility for designing and delivering our in-house Inbox service built on the Nylas api
